

initWheelSpeed

```
graph LR; A[initWheelSpeed] --> B[updateWheelSpeed]; B --> C[calculateSpeed];
```

A flowchart illustrating a three-step process. The first step, 'initWheelSpeed', is in a white box. A blue arrow points to the second step, 'updateWheelSpeed', also in a white box. Another blue arrow points from the second step to the third step, 'calculateSpeed', which is in a gray box. The boxes are arranged horizontally and connected by arrows pointing from left to right.

updateWheelSpeed

calculateSpeed
